

KUJENGA BESPOKE VIRTUAL EVENT PLATFORM

Looking into different virtual event platforms we struggled to find one that combined great content execution, interactive element, and the ability to network all in one platform. That's why we decided to build our own bespoke platform! The Kujenga Virtual event platform takes the usual virtual event experience to the next level by really focusing on the networking elements.

WHAT TO EXPECT:

 Pre-record, Simu-Live & Live Streams	 Live polling and Q&A	 Sponsor Packages	 User Journey Analytics	 API Capability (with your CRM)
 White Label solution available	 Full brand customisation	 Downloadable presentations & resources	 1-2-1 networking capability	 Request meeting opt-in option
 Personal networking meeting room	 Networking concierge	 Guest Directory	 Session specific networking chat (group & individual)	 Meeting dial-in option
 Group messaging service	 Broadcast announcements	 Instant technical support	 Tailored platform features	 Integration to your existing systems
